Sangeetha K
Software Engineer

Mobile: 9159379152
Email: sangeethakannan96@gmail.com

CAREER OBJECTIVE:

Self-motivated professional with experience in software testing with manual and automation skills. Enthusiastic and self-taught software developer, seeking full-time developer role to apply my knowledge in ASP.NET framework. Hoping to combine my testing skills and technical knowledge to help develop quality software and thus help achieving the organization's goals.

PROFESSIONAL PROFILE:

A responsible and dedicated professional having 3.8 years of Software Testing experience, currently working as a Software Test engineer in Temenos India.

Although happy in my testing career, I have realized the aspect of my work I find most rewarding is coding. I am passionate about coding and I have been learning ASP.NET framework for the past 6 months to make the transition from Test Engineer to Software Developer.

PROFESSIONAL SUMMARY:

- Knowledge in **ASP.NET** framework, MVC, C#, Html, CSS, JavaScript, Web API.
- Comprehensive knowledge of **Software Development Life Cycle** (SDLC) and **Software Test Life Cycle** (STLC).
- Experience in Automation testing using Selenium Framework with Maven, TestNG and POM design pattern.
- Understanding, analyzing and streamlining of test requirements.
- Familiar with end-to-end **Test Management** (Functional & Non-Functional).
- Knowledge on **different levels of testing** (Functional Testing, System Testing, Regression Testing, Smoke Testing, Database Testing, Compatibility Testing, Integration Testing for Web Based Applications Testing).
- Expertise in **Test documentation** (Test scenario, Test case, Test plan, Test data, Test execution, Defect report and Test metrics).
- Complete understanding of the **Defect Life Cycle** and classifying them based on severity & priority.
- Knowledge on **SQL Database Concepts** and basic exposure to Database Testing.
- Good communication, quick learner, adaptable, flexible, versatile team player and individual contributorwith strong analytical and problem-solving skills.
- Confident in interacting with client and onshore team to understand the requirement.
- Knowledge on **Web Service Testing** and **API Testing**.

SKILLS AND TRAITS:

- **Domain Knowledge:** Banking and Finance
- **Databases:** Microsoft SQL server, QDC, MS Query
- **SDLC:** Waterfall, Agile
- **Tools:** Visual Studio, Eclipse, VS Code
- **Project Documentation:** BRD/SRD, WSR, Test Plan, RTM
- **Automation Framework:** Selenium.
- **Technical Knowledge:** Java, ASP.NET Framework, Entity Framework, ADO.NET, MVC, C#, Html, CSS, JavaScript, JQuery, Web API, Ajax, SQL.

WORK EXPERIENCE:

01 **Organization:** **NTT Data GDS Ltd**

Type of Industry: Banking and financial services

Project Description: The Unisys Financial Services System (UFSS) is an application that supports all aspects of mortgage management.

Role/Title: Test Engineer
